# POP! ART

**Pop Art** is a major art movement of the second half of the 20th century (and continues today) which includes imagery from popular culture, sometimes removed from its typical context, isolated, and/or combined with unrelated material. Pop Art employs aspects of popular culture such as advertising, comic books, and other common objects as opposed to those characteristic of more elitist culture. It is often simple, fun and colorful!

Famous Pop Art artists include Andy Warhol, Roy Lichtenstein, Robert Indiana, Keith Haring, Jasper Johns, and more recently, Romero Britto.

## INSTRUCTIONS

For this parts of speech coloring activity you will have 2 pages. The first page will have a variety of sentences with a part of speech underlined. The second page will be a coloring page that you will color using your answers from page 1 and the color key on page 2.

Your job is to identify the part of speech of the underlined word in each sentence. Circle each of your answers. Then use your answer to refer to the color grid on the coloring page.

Match your answer from page 1 with the correct color in the color key on the top of page 2. Find the sentence number you are working on in the coloring page and color all the spaces the color you just decoded from your answer on page 1 and the color key on page 2.

For example, if the answer to number 1 is "noun," you would color all the "1's" on the coloring page red. If the answer for number 2 is "adjective," you would color all the "2's" on the coloring page green.

Continue until you get through all the sentences on page 1 and have colored all of the spaces on page 2.
